MEMORANDUM OF UNDERSTANDING

March 16, 2005

Between

**University of Connecticut's Building and Grounds Committee
and
University of Connecticut's Arboretum Committee**

1. All landscape plans that are proposed for new structures or renovated portions of the campus shall be submitted to the Arboretum Committee for review. Suggestions from the Arboretum Committee should be implemented, if economically feasible.
2. Any plan for construction, renovation or destruction of a structure on campus that has the potential of impacting existing trees or shrubs should be submitted well in advance of the project to the Arboretum Committee for comments. "Impact" may include but not be limited to soil compaction, change in soil grade (cut or fill), changes that affect soil moisture availability, and physical damage to the bark.
3. The Arboretum Committee shall be consulted for recommendations before any tree or shrub on campus is removed or re-located.
4. The Provost shall appoint the Arboretum Committee

FOR THE BUILDINGS & GROUNDS COMMITTEE:

Dale M. Dreyfuss, Committee Co-Chair
Vice President for Operations

George T. Kraus, P.E., LEED
Interim Executive Director of
Architectural & Engineering Services

Dr. L. Cameron Faustman, Committee Co-Chair
Professor & Associate Dean of Academic Programs, CANR

FOR THE ARBORETUM COMMITTEE:

David B. Schroeder
Professor and Head

Gregory J. Anderson
Professor and Head
